By Collagen Plus

## ”Beauty that Starts from Within“

Products that help with facial skin elasticity and firmness, and strengthen joints by boosting your body's collagen.

# Our Story

It all began with a surprising discovery of collagen's power in the Netherlands. What started as a routine supplier meeting in Amsterdam became the beginning of a fascinating journey. When we witnessed collagen's remarkable impact on people close to us, **we knew we had something special in our hands.**

In 2012, we established our Dutch brand. For years, we worked hard, researched, developed, and overcame numerous challenges in our Rotterdam facilities. We combined Dutch precision, passion, science, and advanced technology to create the best products.

Over time, we expanded beyond supplements. Today, as True Story, **we offer a wide range of products - from cosmetics to gummies, all powered by collagen, bringing innovation to customers worldwide.**

# Our Mission

True Story's mission is to connect people with the amazing power of natural collagen. We are committed to creating an accessible, easy-to-use, and most importantly - effective health routine. At the core of this mission stands our commitment to uncompromising quality.

We carefully select the highest quality raw materials and insist that every product and ingredient has solid research backing. This is our way of ensuring that everything we offer truly makes a difference.

We believe our customers feel the passion, love, and dedication we invest in each product. **This is our calling - to promote a healthy lifestyle and improved quality of life through natural and effective solutions, backed by science.**

Every day, we work to bring the best that collagen can offer, combining natural wisdom with the most advanced scientific knowledge. This is the mission that guides us - to be the true story of health and vitality in your lives, based on quality, research, and unwavering dedication.

# Our Vision

At True Story, we are driven by a clear vision - to be the global leaders in collagen-based health and beauty. We aim to lead **a revolution in wellness and health perception**, and positively transform our customers' quality of life.

Excellence and quality are our foundations in everything we do. We are committed to delivering the highest quality products that provide impressive results. From ingredients to customer service, we operate with complete transparency, **because our customers' trust is our most valuable asset.**

Each of our products is based on advanced scientific and clinical research. We invest significant resources in studying collagen's effects on health and beauty. Additionally, we are committed to providing uncompromising service. Our consulting center is available to customers, providing professional support and guiding each person toward the best results. **This vision guides us daily**, inspiring and motivating us to continue growing. We aspire to be **the true story of health**, beauty, and vitality in our customers' lives, leading the collagen revolution worldwide while delivering exceptional service experience.
